Certificate of Participation

This is to certify that

Haruki
Yonekura

has completed the 2025 International HPC Summer School

The International Summer School provides participants with opportunities to gain greater knowledge about high-performance computing and its application in numerous fields, and fosters new collegial friendships and partnerships among the international presenters and attendees. The school's programme includes 26 hours of talks, panel discussions, hands-on tutorials, posters and mentoring sessions. The student has successfully completed in-class exercises as part of the programme.

Sponsored by

European High Performance Computing Joint Undertaking (EuroHPC JU)
Edinburgh Parallel Computing Centre (EPCC)
National Center for Supercomputing Applications (NCSA)
Texas Advanced Computing Center (TACC)
RIKEN Center for Computational Science (R-CCS)
Digital Research Alliance of Canada (DRAC)
SciNet HPC Consortium (SciNet)
Pawsey Supercomputing Research Centre (Pawsey)
National Integrated Cyber Infrastructure System (NICIS CHPC)
National Institute for Theoretical and Computational Sciences (NITheCS)
